Economy

The standstill in the New Brunswick economy in 2018 transitioned to a sluggish start in 2019. Manufacturing sales and exports experienced a slowdown after the Irving Oil Refinery explosion and are now beginning to recover. Lumber exports to the United States fell by 18% since 2018. Despite these hurdles, job growth increased by 0.7% since the beginning of 2019 with the service sector leading the expansion. Housing starts are on the rise with a surge of apartment building construction in the province. Demand for single-family housing weakened with 20.1% fewer housing starts recorded this quarter compared to Q2 2018. Home sales are trending upwards and resale values have increased by 8.8% year-over-year.

Market Overview

New Brunswick's vacancy rate trended lower in the second quarter of 2019 as leasing activity pushed the vacancy rate down to 14.7% from 17.9% last quarter. Vacancy rates in Moncton and Fredericton declined, while the vacancy rate in Saint John remained stable. Moncton's vacancy rate fell to 15.3% in the second quarter of 2019, largely driven by robust leasing activity in the Moncton Industrial Park which helped generate positive absorption of 116,870 square feet (sf) in that submarket. Notable transactions this quarter included Scholastic Canada Limited moving into 26,534 sf at 222 Edinburgh Drive and Systemair leasing 14,400 sf at 145 English Drive. The Caledonia Industrial Park experienced a vacancy rate decline from 27.7% in the first quarter of 2019 to 25.1% in this quarter. The Dieppe Industrial Park saw a smaller decline in the quarter-over-quarter vacancy rate, falling from 4.1% to 3.5% in the second quarter of 2019. Vacancy in the Greater Moncton submarket remained unchanged at 5.8%. Fredericton's second quarter 2019 vacancy rate of 10.6% sits at its lowest level since 2016, down from 14.4% last quarter. Vacancy in Saint John remained unchanged at 13.3%.

Industrial net rents in New Brunswick saw a marginal increase from \$6.19 per square foot (psf) last quarter to \$6.20 psf in the second quarter of 2019. Net rents in the overall Moncton and Saint John areas remained unchanged from last quarter, while a net rent increase of \$0.04 psf to \$7.45 psf was observed in the Fredericton market. Compared to a year ago, Saint John and the Greater Moncton submarket have experienced the largest decline in rental rates. Average rates in Saint John fell \$0.10 psf year-over-year to \$7.08 psf, while Greater Moncton rents declined \$0.28 psf to \$5.88 psf over this same period.

Outlook

Demographic trends and long-term tightened government spending will result in slowed GDP growth in the future. As repairs to the Irving Oil Refinery progress, production of refined oil products will be restrained through 2019. Lumber exports are predicted to remain low and New Brunswick's lumber mills are expected to feel the economic impact.
